

CRAZY WRITER

OEM CONTACTLESS SMARTCARD READER + 2 μ SIM/SAM

SpringCard CrazyWriter is a versatile ISO 14443 (A&B) and Mifare contactless reader/writer. Its 2 integrated μ SIM/SAM couplers are ready to receive any SAM smartcard for advanced security.

KEY FEATURES

With a compact design and single bus-powered USB interface, CrazyWriter fits easily into card printers, vending or ticketing machines, fare gates or validators in transportation networks, and more.

PC/SC SMARTCARD READERS

SpringCard CrazyWriter is PC/SC compliant, and brings immediate contactless card support to existing PC/SC applications (the whole product is seen as 3 PC/SC readers : 1 contactless, and 2 SIM/SAM).

On the other hand, CrazyWriter may be configured for legacy, and is in this case 100% compatible with earlier products from SpringCard (CSB4, K531...).

A FEW TYPICAL APPLICATIONS

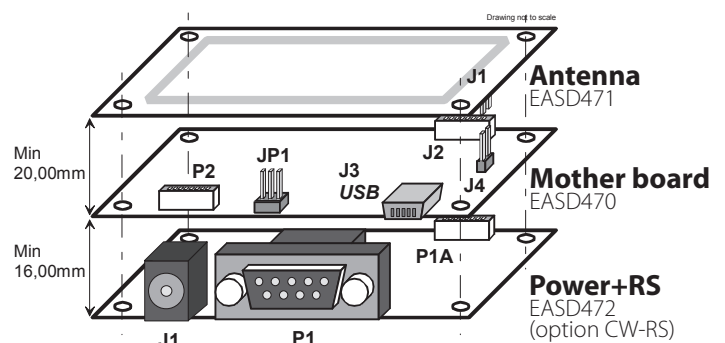

- Card pre-personalisation and personalisation
- Vending or ticketing machines.

SPRINGCARD & PRO ACTIVE

Established in 2000, Pro Active is an innovative provider of smartcard related solutions, and one of the leaders on the contactless-reader market.

SpringCard has been created to distribute Pro Active's contact and contactless products worldwide, under a single brand name.

PRECAUTIONS FOR INSTALLATION

This device is a contactless reader; it uses inductive coupling (magnetic field) to power the cards and communicate with them. Precaution must be taken to keep the reader far from any source of perturbation (e.g. other readers, computers...). Installing the reader near a metal surface (aluminium or steel plate...) will lead to shorter operating distance and increased power consumption. SpringCard has a long experience installing contactless couplers in various kind of devices. Do not hesitate to contact us if you need any assistance.

CUSTOM ANTENNA DESIGN

It is possible to replace CrazyWriter's default antenna by a custom design. Please refer to NXP's application note "Micore proximity antenna design" to design a 50Ω matched antenna. Note that K531 and CrazyWriter may share the same antenna. SpringCard has a long experience in designing antennas. Do not hesitate to contact us if you need any assistance.
